

Caribou-Targhee National Forest

Dubois Ranger District
P.O. Box 46
Dubois, Idaho 83423
(208) 374-5422

Seasons Greetings!

Regulations

Please Do Not cut Christmas Trees in developed campgrounds, in tree plantations, near creeks or streams.

Do Not cut the top off the trees. Stump heights should be no higher than 6 inches. Remove all lower live limbs from stump.

Please park off the road to allow others to pass. When conditions are wet or muddy, drive with caution and avoid damaging the roads and surrounding resources.

There will be **No Refunds** on unused Christmas tree tags.

Please abide by the New Travel Plan Map (available at the Districts).

These regulations will be enforced.

Suggestions

Be cautious of other traffic, especially during winter road and/or weather conditions.

Christmas trees will remain green and flexible for the Holidays if the trunk is kept in a bucket of water or is wrapped in burlap and packed in snow. Keep the tree sheltered from cold winds and store it in an upright position.

Are you dressed warmly? Are you prepared for automobile or snowmobile emergencies? Do you have “over the snow” equipment to help you get to locations where quality trees can be found? Have you checked weather conditions before starting the outing? Do you have your Christmas tree tag?

Have an enjoyable Holiday experience on the Caribou-Targhee National Forest.

RICHARD E. NEWTON
District Ranger

MERRY CHRISTMAS
